

AIA Monterey Bay

Art in Architecture *Presented by* Gordon Huether Studio

Learn how art can Best be incorporated into architecture and its benefits. Research shows thoughtful designs transform spaces. Art in architecture enhances visual aesthetics, increases value and provides users of the space a sense of well being.

This one-hour presentation gives insight into the benefits of incorporating art into architecture, art techniques and applications as well as best practices. Participants receive **1 LU credit (AIA & CID).**

Gordon Huether Studio specializes in site-specific art, glass and sculpture in all types of architecture: civic, commercial, education, healthcare, hospitality, residential, spiritual and landscape. From design/concept inception and sketch, to fabrication and installation, GHS provides turn-key options for all architectural and interior needs.
